

Perforce Software Named Among ‘Best Places to Work’ in the Bay Area

Perforce Ranked #12 in the 51-100 Employee Category

Alameda, Calif., May 12, 2008—Perforce Software has been recognized as one of the "Best Places to Work in the Bay Area 2008" by the *San Francisco Business Times*. Specifically, Perforce was ranked twelfth in the 50 to 100-employee category.

“Being recognized is particularly meaningful because our nomination and ranking emanated solely from our employees,” said Christopher Seiwald, founder of Perforce Software. “The strength of our workplace lies in the bond that exists among our employees. We have an exceptionally talented team of people who share a serious commitment to their work, to each other and to having fun. This camaraderie also leads directly to the remarkable customer satisfaction we enjoy.”

Headquartered in Alameda, Perforce Software is a privately held company with international offices in Wokingham, United Kingdom and Sydney, Australia. Founded in 1995, the company develops, markets, and supports Perforce, the Fast Software Configuration Management (SCM) system.

The award program, conducted annually since 2005, ranks companies based on the satisfaction of each company's Bay Area employees. Employees take surveys rating their company on: team effectiveness, retention risk, alignment with goals, trust with co-workers, individual contribution, manager effectiveness, trust in senior leaders, feeling valued, work engagement and people practices.

About the Perforce SCM System

Perforce, the Fast Software Configuration Management System, is an award-winning tool that versions and manages source code and digital assets for enterprises large and small. Perforce is easy to install, learn and administer; seamlessly handles distributed development; and supports developers across a large number of platforms. Perforce ensures development integrity by grouping multi-file updates into atomic changes, enables concurrent development, and intelligently manages multiple software releases using its Inter-File Branching system.

About Perforce Software

Founded in 1995, Perforce Software Inc. develops, markets, and supports Perforce, the Fast Software Configuration Management System. Perforce Software is headquartered in Alameda, Calif., and sells worldwide. The company has international operations in Europe, Japan and Australia.
