

Perforce Software

About Perforce Software

Perforce Software helps companies build complex products more collaboratively and securely.

Its highly scalable source code management (SCM) and collaboration platform, Perforce Helix, enables global teams to collaborate on any type or size of file. It supports both centralized and distributed (DVCS) workflows while safeguarding intellectual property with advanced behavioral analytics.

According to [an independent study](#), companies that migrate to Perforce improve developer productivity by 15 percent and release their products 25 percent faster.

Perforce is trusted by the world's most innovative brands, including adidas, Samsung, NVIDIA, Intuit, Pixar, Salesforce, EA, Ubisoft and VMware.

The company offers free licenses to educational institutions. Through its [20/20 Program](#), Perforce is also free in perpetuity for 20 users or 20 workspaces.

About the Perforce Foundation

The Perforce Foundation was started in 1999 so that employees could annually direct Perforce money to charities and causes they choose. In 2011, a staff-operated Perforce Giving Committee was established to serve as a voice for all employees to direct additional charitable giving. Through Perforce's Giving Program, each employee can donate \$1,500 annually to three 501(c)(3) charities or good causes of their choosing. Combined with the additional donations made by our Giving Committee, the Perforce Foundation has donated over \$4.8 million since its inception.

Established:	1995
Employees:	250+
Headquarters:	Alameda, California
Offices	Wokingham, United Kingdom Sydney, Australia Victoria, Canada
Key People:	Janet Dryer (CEO) Mark Ties (CFO) Tony Smith (VP, Engineering) Matt Attaway (VP, Community Support) Chris Dobbrow (VP, Sales)
Products:	Perforce Helix (Helix Versioning Engine, Helix Threat Detection, Helix Swarm, Helix GitSwarm, Helix Insights)
Customers:	15,000 (worldwide)
Key Industries:	Embedded Systems Game Development Banking and Finance Healthcare IT/Medical Technology

Executive Staff

Janet Dryer | Chief Executive Officer

As the CEO of Perforce Software, Janet is responsible for leading the company and executing its mission to serve its customers. Prior to joining Perforce, she was the CEO of the HelpSystems family of companies. During her tenure as CEO, HelpSystems increased sales from \$19M to \$110M, completed 14 acquisitions and grew to more than 280 employees in 13 locations worldwide. Over 55,000 installations of the software are currently in use. Janet holds a B.S. in Business Administration from the College of St. Benedict.

Mark Ties | Chief Financial Officer

Mark brings twenty-eight years of experience in accounting, finance, operations and mergers & acquisitions, having served the last eighteen years as CFO and COO for public and private equity-backed technology companies. His most recent positions include CFO/COO of private equity-backed HelpSystems, Inc., and CFO at publicly held Xata/XRS Corporation. Mark worked with the management team and investors to double the size of HelpSystems while also managing the organization through eleven acquisitions and two successful sales of the company. He holds a B.S. in Accounting from Minnesota State Mankato and is a Certified Public Accountant.

Tony Smith | Vice President of Engineering

Tony has more than 25 years of experience in the software industry. Over the course of his 15 year career at Perforce, he has built and developed high-performing teams across Development, Technical Support and IT. Tony has made significant contributions to Perforce's products, both as the sole developer of various components and as the architect behind key projects. While he's still a software developer at heart, Tony now leads Perforce's world-class engineering team and oversees the development of our product.

Chris Dobbrow | Vice President of Sales

Chris Dobbrow's 25 years in technology include 15 years in senior management, where he created and executed revenue strategies focused on major global accounts. Before joining Perforce, Chris was VP of Worldwide Sales at SourceForge, where he successfully transformed the sales strategy for the largest global repository of open source software. During over a decade at technology marketing and media specialist Ziff Davis, Inc., he served as SVP Group Publisher and EVP Corporate Sales. Chris holds a B.S. degree from the University of New Hampshire's Whittemore School of Business and Economics.

Matt Attaway | Vice President of Community Support

Matt is an expert in product development and community management with 15 years of experience in the industry. During his time with Perforce he has worked as a tester, developer, researcher, designer, manager, and ops engineer. He led the team that developed Perforce's open source collaboration community, the Perforce Workshop. Matt was also the lead designer of Perforce Streams and designed and developed the original Windows Explorer plugin. In his current role as Community Support leader, Matt ensures customers around the world are well supported and educated.

Sales Partners

Perforce works with 19 sales partners around the globe, offering in-language support and consulting.
