

## SOFTWARE SUPPORT TERMS AND CONDITIONS

THESE SOFTWARE SUPPORT TERMS AND CONDITIONS (these “**Terms and Conditions**”) apply to the Methodics IPLM and VersIC software products (the “**Software**”) sold and licensed by Perforce Software, Inc., on behalf of itself and its subsidiaries and affiliates (“**Perforce**”). These Terms and Conditions are subject to change at Perforce’s discretion; *provided however*, that material changes shall not take effect for supported Licensees of the Software (each a “**Licensee**”) until the renewal of the Licensee’s Software Support period. Licensees without current Software Support do not receive updates, upgrades, Releases (defined in Section 1.6 below), or patches for the Software, Software downloads for reinstallation, telephone, e-mail, or web-based assistance, or any other support offered by Perforce.

### 1. DEFINITIONS

- 1.1. “**Authorized Technical Contact**” means the individuals identified by Licensee in writing for purposes of submitting Software Support requests, receiving notifications from Perforce, including, without limitation, notifications for reporting Issues and providing updates, and collaborating with Perforce to resolve Issues.
- 1.2. “**Critical Problem**” means an Issue where an entire group is either prevented from performing critical tasks in the Software, or the basic functionality of the Software fails to work without an immediate workaround. The following symptoms are examples of a Critical Problem: (i) the failure of the Software’s engine following a server upgrade; (ii) denial of access to the server where the Software resides; or (iii) the failure to recover the Software’s server data after a hardware failure or crash.
- 1.3. “**Documentation**” means the then-current printed and digital user manual(s), instructions, on- line help files, and technical documentation for the Software (including Releases) made available by Perforce, and any materials or deliverables that Perforce provides to Licensee as part of the licensing agreement, or in the course of providing the Software Support to the Licensee.
- 1.4. “**Issue**” means any failure, error or problem in or with Software that causes or results in the Software not being Operational.
- 1.5. “**Operational**” means the Software, or any Perforce - supplied component thereof, is (i) functional and available to its intended end user in accordance with the Documentation, and (ii) not experiencing any end user impacting errors, defects or service-limiting issues.
- 1.6. “**Release**” means any version of the Software that is made commercially available by Perforce at or after the initial delivery of such Software, including any software provided for the purpose of improving the functions or performance of the Software, exposing the capability or ease of operations of the Software, or for the purpose of fixing errors in the program logic, together with any related Documentation. Releases shall not include new or separate products or Software that Perforce offers for an additional fee to its customers.
- 1.7. “**Software Support**” means technical support and maintenance services for the Software, and any new releases to the Software for which a licensee is paying the Software Support fee, whether separately for perpetual licenses of the Software, or as included in the subscription license fee for the Software, as applicable.

### 2. ISSUE REPORTING; RESPONSE AND RESOLUTION TIMES

- 2.1. All reports of possible Issues in the Software must be communicated to Perforce by Licensee’s Authorized Technical Contact(s) either by logging a support ticket with the [Methodics Service Desk](#), or by calling Perforce at +1 (612) 517-2100.
- 2.2. Perforce shall exercise all reasonable efforts to respond to all such communications within one (1) business day of receipt, unless the Issue is a Critical Problem, in which case Methodics will respond within twenty-

four (24) hours and will work with Licensee until such time as the Critical Problem is resolved. Perforce shall use all commercially reasonable efforts to resolve all Issues reported by Licensee with a permanent solution or a temporary workaround that solves a reported Issue.

### **3. RELEASES AND PATCHES**

- 3.1. Perforce will make each Release of the Software published during the term of Licensee's Software Schedule available to Licensee for download on an ftp site provided to Licensee, or other location as agreed upon in writing by the parties. All such downloads must be initiated by Licensee. Perforce will provide Releases that implement corrections, and Perforce will provide reasonable assistance to Licensee in applying the Release in a way that can avoid diagnosed errors, malfunctions, and defects.
- 3.2. Perforce will provide patches for the latest server Releases and earlier server products for two years after the Software's initial availability.

### **4. EXCLUSIONS FROM SOFTWARE SUPPORT SERVICES**

- 4.1. Perforce has no obligation to: (a) provide Software Support Services where hardware, tools, or software other than those supplied by or approved by Perforce have been incorporated into the Software; (b) provide Software Support for Software damaged by, or caused by, Licensee; (c) import or export Licensee data, create or modify custom business rules or reports, or support custom modifications of the Software; or (d) provide Software Support Services for problems that cannot be reproduced in running the Software in a configuration meeting Perforce's published specifications.
- 4.2. On-site consultation at Licensee's location, if requested by Licensee, and subject to availability of Perforce's technical staff, will be provided at Perforce's then-current standard rates plus reasonable associated expenses.
