About Perforce Software

Perforce powers innovation at unrivaled scale. With a portfolio of scalable DevOps solutions, we help modern enterprises overcome complex product development challenges by improving productivity, visibility, and security throughout the product lifecycle. Our portfolio includes solutions for Agile planning & ALM, API management, automated mobile & web testing, embeddable analytics, open source support, repository management, static code analysis, version control, IP lifecycle management, and more. With over 20,000 customers, Perforce is trusted by the world’s leading brands to drive their business critical technology development.

Chief Legal Officer
APPLICATION LIFECYCLE MANAGEMENT

Helix ALM
Manage requirements, tests, and issues — all in one spot, with complete traceability.

DIAGRAMMING

Gliffy
Powerful visual communication and collaboration for Atlassian Confluence and Jira.

VERSION CONTROL + CODE REVIEW

Helix Core + Helix Swarm
Version everything for world-class development at scale — plus get built-in code reviews.

STATIC CODE ANALYSIS FOR C/C++

Helix QAC
Ensure safe, secure, and reliable code — with greater accuracy for compliance.

CODELESS SELENIUM TEST AUTOMATION

TestCraft
Create codeless test scripts — no framework required — with AI maintenance.

JAVA APPLICATION DEVELOPMENT

JRebel
Build better Java applications faster — run and test changes in real-time.

ENTERPRISE PHP DEVELOPMENT

Zend
Build better sites and apps with enterprise PHP tools, training, certifications, and long-term, 5-year PHP support.

AGILE PROJECT MANAGEMENT

Hansoft
Plan, track, and manage progress — while using Agile, Waterfall, hybrid Agile, or others.

GIT AT SCALE

Helix4Git
Bring Git code into your build pipelines — while leveraging the performance of Helix Core.

IP LIFECYCLE MANAGEMENT

Methodics
Manage intellectual property and reuse IP across teams with traceability, compliance, and security.

STATIC CODE ANALYSIS FOR C, C++, C#, AND JAVA

Klocwork
Improve the quality and security of your code — and accelerate your DevOps cycle.

WEB AND MOBILE APP TESTING

Perfecto
Take automated testing to the next level with our leading cloud-based continuous testing platform.

SECURE API MANAGEMENT

Akana
Take APIs from strategy and design to deployment and optimization – with industry-leading security.

OPEN SOURCE SUPPORT

OpenLogic
Innovate faster and cut costs with enterprise support and services for all your open source technologies.

DEVELOPMENT TOOLS AND EMBEDDED COMPONENTS

TotalView, HostAccess, HydraExpress, IMSL Numerical Libraries, PV-WAVE, SourcePro, Stingray, Visualization
Analyze, build, optimize, and extend your enterprise applications — for better performance.
