P4 Health Check

Complete Enterprise Assessment of Your P4 Implementation

Every P4 environment has untapped potential. Performing regular health checks uncovers missed opportunities and ensures that your platform functions optimally and securely. The P4 Health Check:

- Reveals exactly where your implementation stands
- Identifies critical risks
- Delivers a clear roadmap to operational excellence
- Provides the foundation for strategic advancement through the Black Belt Program

Assessments are spread across 5 days. During that period, a P4 expert will evaluate your environment using a proven methodology:

- **Assess** current maturity levels across all dimensions
- **Benchmark** against industry standards and best practices
- **Identify** risks, gaps, and optimization opportunities
- **Plan** strategic advancement with prioritized roadmap

Beyond Basic Audits

Our P4 experts bring specialized knowledge with direct access to Perforce product teams, delivering:

- Deep evaluation across all operational dimensions
- Industry-specific benchmarking and best practices
- Actionable findings with clear remediation paths
- Strategic roadmap aligned to business objectives

Assessment Focus Areas

The Health Check evaluates your environment across five key dimensions:

1. **Availability Management**: Backup, recovery, HA, DR, monitoring, and incident response

2. **Security & Compliance**: Access controls, encryption, CVE response, and audit capabilities

3. **Performance & Scalability**: Optimization, capacity planning, and resource utilization

4. **Development Workflow**: Branching strategies, code review, and collaboration processes

5. **Integration & Extensibility**: System integrations, customization governance, and user support

Key Benefits

- **Clear Visibility**: Know exactly where your P4 implementation stands across all dimensions

- **Risk Mitigation**: Identify and prioritize critical vulnerabilities before they impact operations

- **Strategic Direction**: Receive a prioritized roadmap aligned to your business objectives

- **Investment Justification**: Data-driven insights to support technology decisions

- **Partnership Foundation**: Establish the basis for ongoing Black Belt engagement

Expert-Driven Assessment: The Health Check Difference

Unlike generic IT audits or self-assessments, our Health Check brings Perforce-certified expertise to your specific environment. Our experts ensure benchmarked best practices and industry-specific insights, delivering actionable recommendations rather than generic findings.

3 Step Assessment Scope

1. Discovery & Analysis

2. Maturity Evaluation

3. Roadmap Development

5 Step Methodology

1. Assess

2. Benchmark

3. Identify

4. Plan

5. Report

Deliverables

Deliverable	Description
Executive Summary	Key findings, critical risks, top recommendations, and ROI potential
Detailed Assessment Report	Per-dimension analysis with evidence, scores, and specific findings
Maturity Visualization	Radar charts, heatmaps, and gap analysis diagrams
Implementation Roadmap	Prioritized work packages from quick wins to long-term advancement
Risk Register	Documented risks with severity, impact, and mitigation recommendations

Do I Need a Health Check?

The P4 Health Check is ideal for:

- Organizations that have never had a formal P4 assessment

- Teams experiencing performance, stability, or security concerns

- Companies planning significant P4 environment changes

- Enterprises with compliance or audit requirements

- Organizations considering Black Belt Program but want to start with assessment

Next Steps

Contact your Perforce account representative to schedule a P4 Health Check. Our assessment process typically begins within 2-3 weeks of engagement, with complete deliverables provided within one week of assessment completion.

For more information, contact your account executive or follow the link and fill out the form at the bottom of the page.
